(54) Title: ENANTIOSELECTIVE SYNTHESIS OF ENANTIOMERICALLY ENRICHED COMPOUNDS

(57) Abstract: Method of preparing an enantiomer-
ically enriched compound of formula (II) comprising
enantioselective hydrogenation of a compound of
general formula (I): where W, X and Z have the
meanings indicated in the description, to give a
compound of general formula (II): where W, Y, T and
C* have the meanings indicated in the description,
in the presence of a catalyst or its suitable precursor
based on Rh, Ru or Ir, having an oxidation state of 0,
+1 or +2, and containing at least one enantiomerically
enriched chiral ligand.
